

Agent Mind

Unleashing the AI Mind in Every Shipping Agent

designed by
 **Sipod**

Imagine a world where agents are empowered by AI and has seamless access to all relevant data — decisions become faster, service becomes smarter, and potential becomes limitless.

Countless ports. Endless port calls. Data scattered and complex — holding your agency back from peak performance. And that means lost revenue.

Agent Mind connects your systems with live vessel intelligence, market pricing signals, and AI-powered reasoning — so you never miss an opportunity.

Why to adapt Agent Mind

AI Assistant - a reliable agent's consultant

Get instant answers to complex questions with a trained model tailored to your business and the global market.

What to sell and when to sell

Know which customers to pitch — before your competitors do. Agent Mind highlights the right prospects and the right services to offer.

Smart Notifications

React instantly when a vessel changes port, ETA shifts, an SOF is filed, or any key event unfolds.

Improved and Automatized operations

Eliminate routine tasks and reduce human error. Simplify operations, save time, and elevate performance. Let DA and SOF management reach a new standard.
