

# AI-Powered Solution for Bunker Fuel Traders

designed by  
 **Sipod**

**Drive more sales.**  
**Gain smarter insights.**  
**Make faster decisions with**  
**smart data and maritime AI.**

Disorganized, siloed data often leads to missed signals—and missed revenue.

**Bunker Mind** unifies your internal sales and operations data with real-time vessel intelligence, market pricing trends, and AI-powered reasoning.

## What Can You Do with Bunker Mind?

### Chat with a Smart Assistant

Get instant answers to complex questions with a trained model tailored to your business and the global market.

### Identify Hot Prospects First

Know which vessels are worth pitching before your competitors do. Bunker Mind predicts the best targets and the right time to act.

### Stay Ahead with a-Time Alerts

Be the first to know when vessels change ports, book fuel, or update their ETA. Stay proactive—not reactive.

### Automate & Accelerate

Cut repetitive tasks and human error. Streamline sales operations to save time and boost performance.
